You can return most items within **10 days of delivery**. The item must be unused, in its original packaging, and returned with all accessories, manuals and free gifts. The window differs by category:

Category	Return window	Condition
Kitchen appliances (kettles, blenders, toasters)	10 days	Unused, original box and accessories

Personal care	7 days	Sealed and unopened only

2. How to request a return

1. Open **My Orders** on the Nestora website or app and choose **Return item**, or email support@nestora.example with your order number.
2. Select a reason and, for damaged or wrong items, upload clear photos.
3. We approve eligible requests within 24 hours and schedule a pickup within 2 to 3 business days.
4. Pack the item securely with all accessories. Do not ship it yourself unless we ask you to.

3. Damaged, defective or wrong items

If your item arrives damaged, defective or different from what you ordered, report it within **48 hours of delivery** with photos of the item and the outer box. We will arrange a free pickup and offer either a replacement or a full refund, including the original shipping fee. Reports made after 48 hours are reviewed case by case and may be treated as a standard return if the item is still inside its return window.

4. Refund methods and timelines

6. Exchanges

You can exchange an item for a different size or colour of the same product within the return window, subject to stock. If the replacement costs more, you pay the difference. If it costs less, we refund the difference using the rules in section 4.

7. Cancellations

Orders can be cancelled for a full refund before dispatch. Once an order has been dispatched, it cannot be cancelled; refuse delivery or request a return after it arrives.

8. When we cannot accept a return

- The return request is made after the return window has ended.
- The item is used, washed, altered or missing accessories, packaging or free gifts.
- The item is marked Final Sale, or is a gift card or opened consumable, and is not damaged or defective.
- Damage was caused after delivery, for example by dropping the item or using it with an unsuitable power supply.
